WORK EXPERIENCE

University of Zagreb, Faculty of Electrical Engineering and Computing, Croatia

Backend developer

October 2019 – January

2020

- worked on the backend on the project in the subject *Software Design*
- worked with technologies Hibernate, REST, SpringBoot

Team member

October 2019 – January

2020

- worked on project Artificial player under subject *Project*
- specifically worked on evolution algorithms

Project co-lead

October 2020 – January

2021

- worked on subject *Pattern recognition*
- worked on implementation convolutional networks for people segmentation

EDUCATION

University of Zagreb, Faculty of Electrical Engineering and Computing, Croatia

Bachelor's degree, Computer Science

October 2017 – July 2020

- attended and successfully turned in all the homework assignments *Basics of Java programming language*
- final paper: Application of evolutionary algorithms on hard optimization problems

Master's degree, Computer Science

October 2020 – July 2022

- graduation thesis: Reading printed text using machine learning methods

SKILLS

Proficient level

- **Java (SE, EE)** – used on subjects and projects in university
- **Python** – used on subjects and projects in university

Intermediate level

- **C** – used on subjects and projects in university
- **SpringBoot, REST, Hibernate** – used on subjects and projects in university
- **HTML, CSS, Javascript** – used on subjects and projects in university
- **SQL, ORM** – used on subjects and projects in university
- **GIT** – used on subjects and projects in university

Beginner level

- **C++** – used on subjects and projects in university
- **C#** – used on subjects and projects in university

OTHER SKILLS AND INTERESTS

LANGUAGES

CROATIAN (mother), English (fluent)
